

ACCESS RISK ANALYSIS · 100% LOCAL

From months to minutes.

Portable Segregation of Duties & access risk analysis for SAP and any ERP. The full toolkit, in one licence, designed for independent SoD & GRC consultants who deliver high-quality analyses, fast, on any client engagement.

Minutes

Full system analysis on a laptop

100% local

Data never leaves your machine. Client-friendly.

From 311 EUR

Core features monthly. Add modules à la carte.

WHAT YOU GET

● Risk Analysis

Cross-system SoD & Critical Access at user and role level. Multi-system support out of the box.

● User & Role Explorer

Drill into authorisations, transactions and assignments. Understand any role in seconds.

● Simulation

Test role and user changes before deploying. Catch new conflicts at design time.

● Smart Remediation

Step-by-step action plans ranked by business impact, ready for sign-off.

● Did-Do Analysis

Real risks, not theoretical. Filter findings to what users actually executed.

● AI-Native (MCP)

Embedded assistant + Model Context Protocol server. Bring your own LLM, zero cloud exposure.
